

Testimonies

“With conventional copper fittings in larger sizes, it would take an hour per fitting to join them. With Viega ProPress, you can do a whole run of fittings in an hour.”

- Dan Metcalfe, Owner, Taps Plumbing

“Pressing with Viega is tremendously efficient versus brazing or soldering. We’ve tried other similar products and had issues with them or the quality wasn’t as good as ProPress.”

- Craig Hawkins, Project Executive, Brandt Construction

“ProPress is especially valuable in remodels. There is a lot less risk involved if you don’t have to light a torch, especially in buildings with old and flammable products. Installing ProPress, you’re going to get a better system than a soldered one. It’ll take less time to install, so it’ll be more competitively priced.”

- Jeremy James, President, James Plumbing Company

“Sweating large-diameter tubing on the roof in the sun and the wind is very cumbersome. Viega ProPress is the ideal way to go.”

- Carlos Fernandez-Aballi, Ph.D. and Engineer, AET Solar

The Name Matters

When it comes to your work, "good enough" isn't good enough. With your reputation on the line, you don't trust just any press system. You want the original ProPress®. The most durable, dependable, innovative pipe connector on the market.

Pros Use
Viega
ProPress

The one and only ProPress®.

Viega ProPress is the most trusted and widely used press system to this day. With millions of systems installed worldwide and thousands installed every day, Viega ProPress has more applications, approvals and certifications than any press system.

Quality work is built with quality equipment.

Viega ProPress is more durable and dependable than other pipe connectors. That's why contractors rely on ProPress for long-term performance. Viega ProPress ensures reliability with a 50-year limited warranty.

Service and support mean peace of mind.

Viega's extensive service network and strategically placed distribution centers ensure contractors have the products and support whenever and wherever they need them. Viega has an ATD (Ability To Deliver) score of 97.95%, which means your products will be shipped within 48 hours and available when you need them.

Smart Connect® technology helps eliminate uncertainty.

Smart Connect technology is the only proven connection identification method in the industry. Viega makes it easy to identify unpressed connections so contractors can finish a job with the confidence that it's done right.
